

## Pets of the Week

**This Week we're spotlighting: HORSES!**

There is a huge horse crisis going on right now due to the large number of horses in the US that need a homes. Hooves & Paws Rescue out of Glenwood, IA recently rescued two horses from a serious horse trailer accident. The owners left the horses in the trailer at the scene of the accident. They had several lacerations around the face and bleeding from the mouth but luckily no broken legs. The horses are up for adoption now through Hooves & Paws Rescue in Glenwood, Iowa. These horses along with many others in our community need forever homes as well as safe house and foster homes to heal. If you're interested in helping and for more info call the Hooves & Paws Rescue at 712-527-37-21.
