Hooves & Paws Rescue near Glenwood says they were recently left by someone on a 100-degree day.

Dakota and her eight, 3-week-old puppies were found alone and scared. One puppy was dead next to Dakota. The seven others were brought to Hooves & Paws Rescue to recover.

Geana Stoops of Hooves & Paws says Dakota is very thin due to malnourishment and is being given supplements to help her gain weight. Her puppies are being bottle fed to help her out until she can nurse again. All puppies and their mommy will again be seen by a vet before they turn six

weeks old.

Adoption agreements may be found on the Hooves & Paws **Web site**. Anyone who would like to see the puppies may call Hooves & Paws Rescue at 712-527-3721 or 712-355-3721.
